   I am a software developer with 1 year of experience, mainly focusing on front-end development using AngularJs and DevExtreme. I have been involved in some back-end work, utilizing C# .NET. I have collaborated effectively with my own team, external teams and also outside the organization. I am sociability, friendliness, fast learner who enjoys acquiring new knowledge and skills, open to embracing new challenges, and I believe that there is chance for further personal growth and development to get working experience and become professional.

Skill

Front-End	JavaScript , TypeScript , HTML ,CSS , PHP
